Why should I create a login for the Judson Library Catalog? How do I create one?

You will need a login/account for the Judson Library Catalog in order to renew and request books. To create one:

1. Go to the library website at http://www.judsonu.edu/library
2. Click Judson Library Catalog
3. Click Login
4. Click Create New Account
5. Fill in your first name, last name, and e-mail address
6. Type in a username and password. Pick a username and password that you will remember throughout college because the library staff can’t look it up for you if you forget. For example, you may want to use the first part of your Judson e-mail address for your username and your Judson ID number as the password.
7. Type in your Borrower ID number, which is the same as your library ID number. Your library ID number is the 14-digit number underneath the barcode on your Judson ID card.
8. Type in your last name again
9. Judson is the I-Share library with which you are affiliated
