

# JUDSON UNIVERSITY

## Information Technology Department

### Connecting an iPhone, iPad or Similar Device to the Judson Wireless Network

1. Go to "Settings."
2. Select "Wi-fi," and turn it on, if it's not already.

3. Regardless of the networks listed as available, select "Other..."

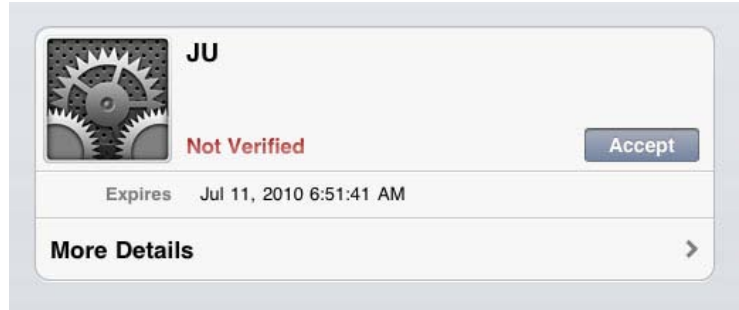

4. In the network "Name" field, type *jcwirelessBG*.

5. For security type, select “WPA2 Enterprise,” then enter your Judson username and password.

6. When the “not verified” window pops up, select “Accept.”

7. After it successfully authenticates, open a browser and login to Websense if prompted.
