Architecture courses are sequential. Therefore, students must successfully pass a course with a minimum of a C- to meet the prerequisite of the next course in the sequence. Example: ARC231X must be passed in order to take ARC232X, and ARC251X must be passed in order to be eligible to take ARC252X, and so on throughout the curriculum.

* Spring Semester of the third year is the designated semester for a study abroad option. ENG elective and HIS262 must be taken in another term. ARC352, ARC381, and up to two ARC ELECTIVES are substituted for study abroad with the permission of the Department Chair.

**Elective Options: Students are encouraged to explore elective offerings in different disciplines. If electives are taken in architecture, students are recommended to take studio and representational, art and drawing courses such as: ART212: Painting I, ART223X: Photography I, ART311: Drawing III, ART315: Ceramics I, ART316: Ceramics II, ARC410: Advanced Digital Representation I, ARC442: Advanced Architectural Drawing. Those students who have satisfied all elective requirements may take up to 6 credits of graduate elective as an undergraduate, once they are seniors in credits earned, are in good standing, and with the permission of the Department Chair.

Minors are available to architecture students. Those most commonly pursued by architecture students include: Studio Art, Graphic Design, Business, Worship Arts, Biblical Studies, and Theological Studies. Minors will require additional semesters to complete and are highly encouraged.
